

Wireless Car Adapter

User Manual

Warning

Please read all instructions and warnings before using this product.

- For your safety and the safety of other road users, and to comply with the traffic laws of your country, please do not watch videos while driving.
- Do not store this product in a high temperature, strong light, or strong magnetic field environment, and avoid placing it in other harsh environments.
- Avoid strong physical impact, including hitting, stepping on, or squeezing.
- Avoid powering the product with a power source that exceeds the rated voltage of the product, as this may cause the product to malfunction.
- Do not disassemble this product, as it will void the warranty.
- If the consumer violates the product explanation and uses it improperly, they will bear all the consequences, and the company will not bear any legal responsibility.

* This product is only compatible for vehicles with factory wired CarPlay or Android Auto.

* The information in this manual is subject to change without prior notice.

Overview

Converts Factory Wired CarPlay to Wireless CarPlay

Converts Factory Wired Android Auto to Wireless Android Auto

Check the adaptability

How to check for factory wired CarPlay of vehicles.

Plug in the iPhone into the car's USB port using the original factory cable. If the following notification pops up on the car, it means your car has built-in CarPlay.

* iPhones must run iOS 10 or a later version.

* If you are still unable to determine whether your car supports wired CarPlay, please Contact your car dealer for help.

How to check for factory wired Android Auto of vehicles.

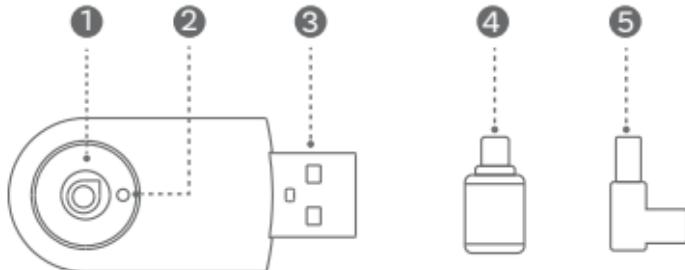

Plug in your Android phone into the car's USB port using the original factory cable. If the following notification pops up on your car, it means your car has Android Auto built-in.

* The phone must run Android 11 or a later version.

* If you are still unable to determine whether your car supports wired Android Auto, please Contact your car dealer for help.

Hardware Interface

* Where this diagram is inconsistent with the product, the product shall prevail.

Used for power supply and data transmission.

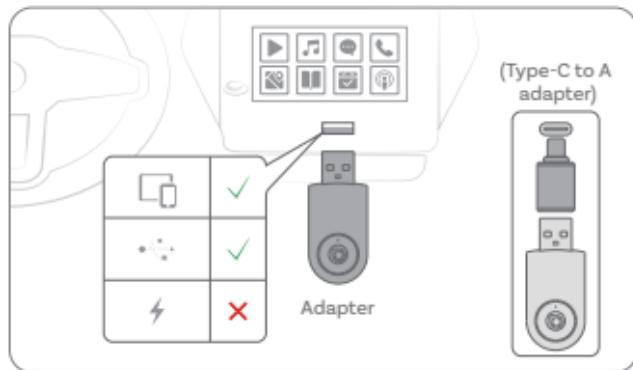

④ USB-A Female to Type-C Male Adapter

⑤ USB-A Female to USB-A Male Adapter

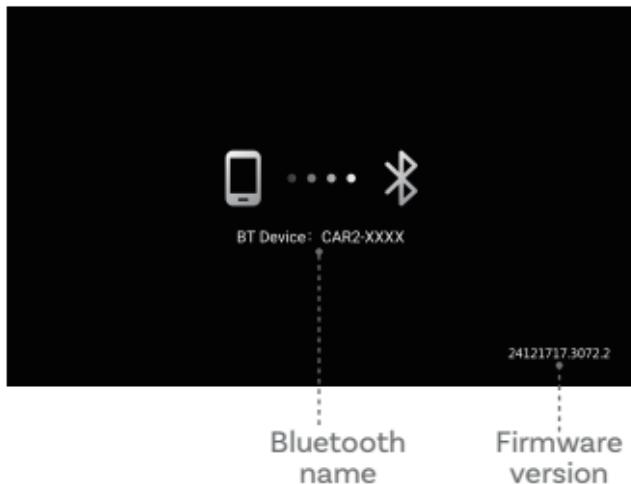

Start

Install

* Where this diagram is inconsistent with the product, the product shall prevail.

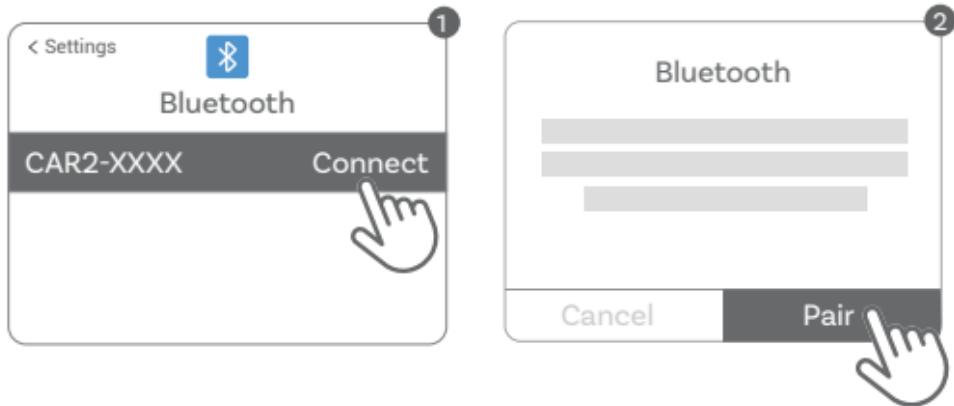

User Interface

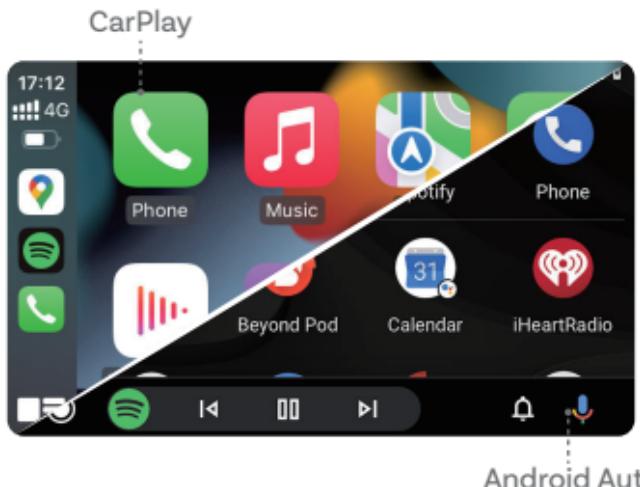

Wireless CarPlay/Wireless Android Auto

1. Turn on your phone's Wi-Fi and Bluetooth, then pair it with a Bluetooth device named CAR2-XXXX

3. Successfully connected to CarPlay/Android Auto (and there is no need to repeat the pairing steps the next time it starts).

Switch Devices

1. Remove the adapter from the car.
2. Turn off the WiFi and Bluetooth of the current phone.
3. Connect the adapter to the car and start connecting Bluetooth.

* Automatic mode switching:

The device will automatically recognize CarPlay or Android Auto, and when a mode switch occurs, the device will automatically restart once.

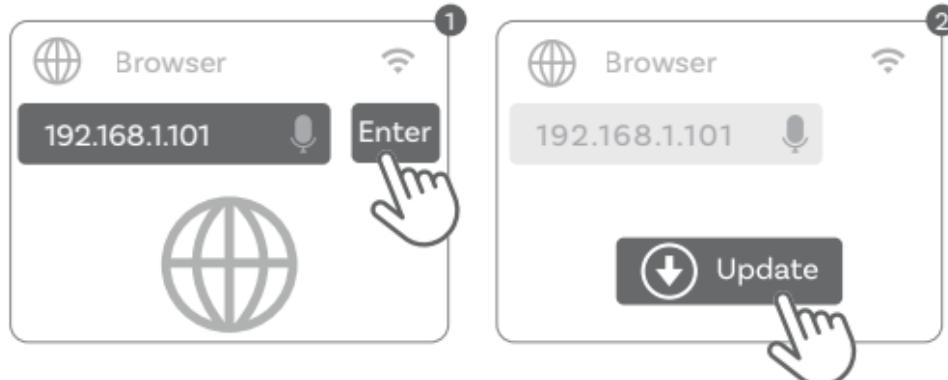

* Reconnect mechanism:

This adapter supports storing two phones, and by default, it prioritizes reconnecting to the last used phone. If the reconnection timeout (15-30 seconds) occurs, it will automatically connect to the other phone.

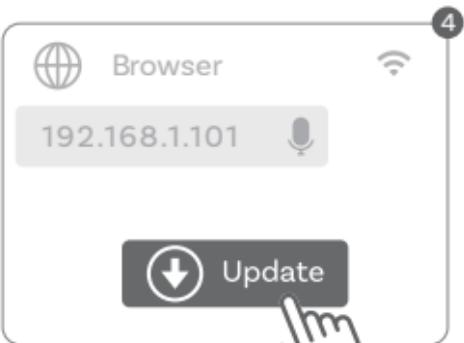

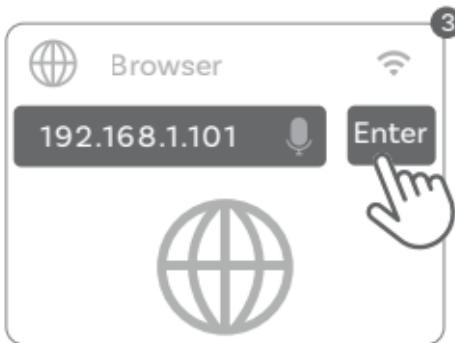

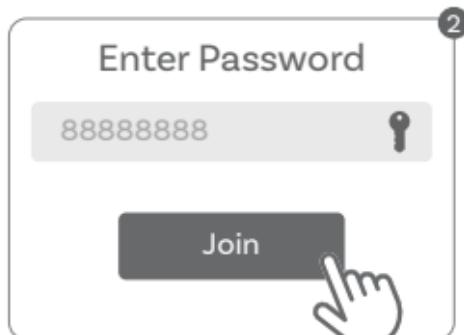

Instructions for upgrading and reporting issues for iPhone users

1. Firmware Upgrade

- 1.1 Upgrade in CarPlay connected state.

1.2 Upgrade when CarPlay is not connected.

- * Please do not turn off the power during the update process.
- * After the upgrade is completed (with the LED in color white), please unplug the adapter.
- * After updating, please re-pair your phone.

2. Reporting issues

2.1 Fill in the table and submit.

Car brands	Volkswagen
Car models	Passat
Car years	2023

1

Upload log

2.2 Copy the case number.

Car brands	Volkswagen

Instructions for upgrading and reporting issues for Android phone users

1. Enter P2P path 1

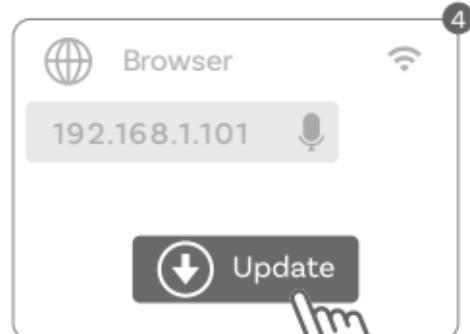

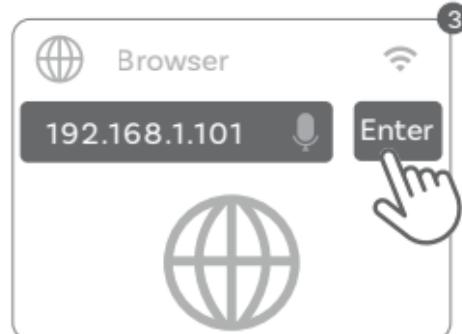

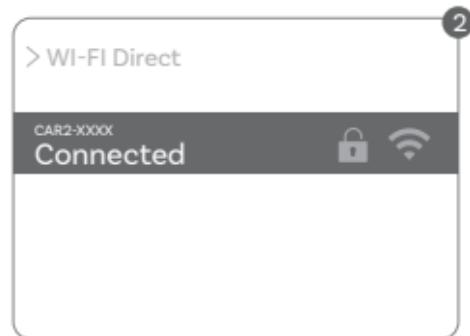

2. Enter P2P path 2

3. Firmware upgrade in P2P mode

Please find the Wi-Fi Direct feature on your phone.

- * Please do not turn off the power during the update process.
- * After the update is completed (with the LED in color white), please unplug the adapter.
- * After updating, please re-pair your phone
- * Please wait for WiFi to be connected before performing any other operations
- * The path to enter WiFi Direct function varies slightly among different phones. Taking Google Pixel 6Pro as an example: **Settings** → **Network&internet** → **Internet** → **Network preferences** → **WiFi Direct**.

4. Reporting issues in P2P mode

4.1 Fill in the table and submit.
